

# DANCE SAFE PLAN SUMMARY

1

HAND SANITIZER & HANDWASHING will be available throughout the facility. Dancers will be asked to sanitize or wash as they enter & before they leave the facility.

2

Dancers will QUEUE 6' APART OUTSIDE TO ENTER, on marked spots. Our electronic Covid screening form must be completed prior to entry for anyone entering the facility. Dancers will be released from class one at a time, from our staff to caregivers waiting.

3

Our STAFF WILL WEAR FACE MASKS. Anyone entering the building ages 2 & up must wear a mask anytime they are not in class dancing. Students are encouraged to wear a mask in class as well, but it is not required.

4

Students no longer *have* to maintain a distance of 2m while in the dance studios, however we will continue to use our 'dancing boxes' or 'x's on the floor' to keep students distanced when practical. This change allows us to incorporate more activities back into our classes, including travelling across the floor, & use of our big props such as the parachute.

5

ENHANCED CLEANING ROUTINES are in place where the studios are deep cleaned at regular intervals throughout the week, & high-touch surfaces are cleaned frequently. Any props used in classes are disinfected after use.
